- Transparent Business Process

In short, we help you save time and cost by offering the best and most suitable solution for your logistical requirements.

Message from Managing Director

I would first like to express my sincere gratitude for your continuous support.

The UAE's strategic location remains a key element in the continued success of our company, giving us greater flexibility to access key destinations worldwide. In fact, because of the UAE's inherent advantages in terms of its location and world-class infrastructure, the freight forwarding industry has performed beyond expectations even at the height of the global economic downturn.

As the economy steadily regaining momentum, we look forward to capitalize on our strong presence in the UAE and further consolidate our presence in the global freight forwarding market with the help of our business partners and agency network around the world

Our company's strategy is focused on two core objectives: **customer satisfaction** and **world-class service**. We believe our commitment to excellence complements the growing reputation of the UAE as a vital link in the global trade. The same passion for excellence has been a crucial factor that has made Waterline Freight Solutions the preferred solutions provider for Ocean, Air, Land and other related freight forwarding services.

We remain committed to provide solutions to make the clients' business easier, faster and cost effective.

Thank you.

Ali Abdulla Salem Ashoor Al Mahri

Managing Director

Waterline Freight Solutions

Freight Forwarding:

- Waterline Freight Solutions, is part of the World Cargo Alliance which is the world's largest and most powerful network of independent freight forwarders.
- With access to over 190 countries, Waterline Freight Solutions has created a niche for itself in the world of logistics and freight forwarding.

a. Ocean Freight:

- Our strong and unparalleled ties with world's largest shipping lines enable us to offer most competitive services for Imports, Exports and Cross Trade shipments.
- Waterline Freight Solutions offers Full Container Load (FCL), Less-than-container load (LCL), Break Bulk (BB), Roll On-Roll Off (RO-RO) and Out of Gauge (OOG) shipments services with competitive pricing and a friendly customer support mechanism
- Offering regular tracking mechanism for all shipment
- Tailor made solution for any size or any volume.

b. Air Freight:

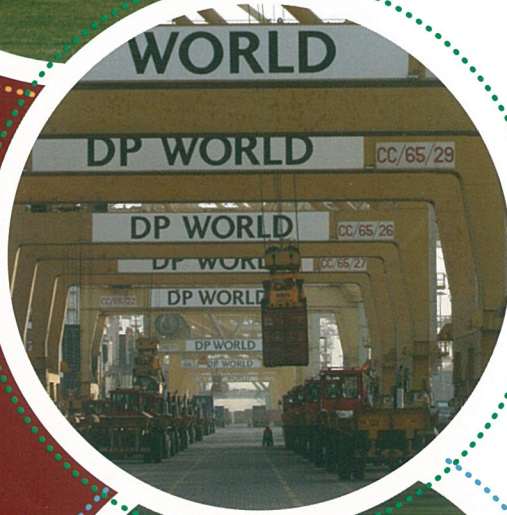

- Our in-depth market knowledge and strong partnership with prime carriers allows us to provide time-definitive Air Freight Solutions to our customers.
- We pride ourselves in being able to provide quick and fast Air Freight services for Import, Export and Cross Trade shipments.
- Be it a substantial volume of general cargo or specialized commodities, our Air Freight experts assist you with a most suitable and cost effective solution within a short notice.

c. Multimodal:

- Waterline Freight Solutions prides itself as a pioneer in providing efficient and hassle free multimodal transportation solutions.
- With our global network touching 190 different countries, our specialized in-house team provides personal assistance to our clients in execution of documents as per the custom requirements

d. Buyers Consolidation:

- Waterline Freight Solutions understand the world of logistics and freight.
- We strive in our endeavor to remove any worries our clients may have about different steps involved in Freight and logistics across multiple countries.
- Regardless of the size of the consignment, the number of suppliers, warehousing and different documentation, our professional workforce make sure that our clients receive the best freight forwarding service backed by a dedicated customer support helpline at all times.

Auto Logistics:

- We facilitate shipping automobiles, trucks, commercials vehicles using Shipping Containers and RO-RO carriers.
- If necessary we ship out the most expensive and luxury vehicles by Air Freight.
- Using our dedicated facility, our expert team who are well versed in vehicles stuffing technics can load up to 6 vehicles in shipping containers with utmost care.
- We can also offer RO-RO services via major ocean carriers at a very competitive price.
- Our project team is well experienced to lash oversized commercial vehicles on Flat Bed containers to transport vehicles were regular RO-RO carriers won't make a call or to land locked countries.

Oversize & Heavy Lifts:

- We are staffed with a qualified team that specializes in handling customer specific transport solutions in the project and heavy-lift department.
- The experienced, innovative and reliable team can handle the most complicated projects to ensure that even the biggest and heaviest cargo reaches its destination intact and on schedule.
